

Tiki is a web-based, multilingual, wiki and content management system (CMS) tightly integrated with a comprehensive set of groupware features. It is a free and open source software created by a large, international development team.

Tiki includes hundreds of well integrated features. In most situations, Tiki “does it all”. You do not need to find other software to fill in a missing piece. Because of this, Tiki helps you to easily create all types of collaborative applications: websites, portals, knowledge bases, intranets and extranets. Tiki’s web-based, graphical interface makes it easy to configure the features you need. Tiki’s enormous set of features allows you to have the confidence that it will adapt well to all your requirements, now and in the future.

Features

- Multilingual wiki
- Blogs and articles
- Forums

- External authentication support (LDAP, OpenID, etc.)
- RSS syndication
- WYSIWYG editing
- Surveys, quizzes, and polls
- Activity-based workflow engine
- Advanced multilingual capabilities

Solutions “out of the box”

To get you going quickly, you can select from a list of profiles. Tiki will then be configured correctly for you to start using it immediately. This will save you a lot of time and also allows you to share the details of successful configurations with others.

Examples of this powerful profile feature include:

- Corporate wiki / Intranet / Extranet
- Corporate website
- Knowledge base / Bug tracker
- Project management
- Community portal
- Workflow and specialized web applications
- Application forms
- Multilingual collaborative glossary

More are being added to this list, in an innovative, open and collaborative manner. To read more about this exciting feature, visit profiles.tikiwiki.org.

Tech specs

Tiki is designed to be run easily on readily available web hosting technology. It is built using the following technologies, chosen to provide a powerful and proven foundation for the system:

- PHP
- ADOdb
- MySQL
- Zend Framework
- jQuery
- Smarty

Timeline

Since its foundation in 2002, the project has grown substantially and reached a significant milestone of 700,000 downloads in 2008. There have been over 200 developers working on the project which makes it one of the most extensive, diverse and active open source communities in the world.

Current version is Tiki 4.0 released in November 2009.

By the numbers

7+ years old

35+ languages

200+ code contributors (via CVS/SVN)

1,000+ wiki pages of documentation

1,000+ built-in features and preferences

700,000+ downloads

1,000,000+ lines of code, with a code commit every two hours on average

Who's using Tiki?

- **Mozilla / Firefox**, this enormously popular web browser uses Tiki for its very busy multilingual support site.
- **Council of Europe** has 47 European member states. It uses Tiki to support over 40 different areas of activity within the council.
- **Rio Tinto Alcan**, the world's largest producer of bauxite, alumina and aluminium.
- **Tembec**, a leading forest products company, with operations in North America and France.
- **Province of Québec Government, Canada**
- **Sainte-Justine UHC Foundation**, a high-level university hospital center located in Montréal, Canada.

FAQ

Q Where can I download Tiki?

A info.tikiwiki.org/Get+Tiki

Q Can I test Tiki without installing it on my webhost?

A Yes! Visit tikiwiki.org/demo to access a test installation and “try out” Tiki. You can log in as an administrator and get a feel for how Tiki works.

Q Where can I see how far I can go with Tiki?

A You can have a look at the documentation at doc.tikiwiki.org and also watch some videos about it at tikiwiki.org/TikiMovies

Q How can I get involved in the Tiki community?

A First, use and enjoy the software. Then please feel free to contribute in any way you like - answering user questions or suggesting ideas, translating interface text, keeping documentation up to date, or helping as a code developer. We are a very open and friendly community. info.tikiwiki.org/Join+the+Community

Q Is this really free?

A Yes, it's a free source software. The license is LGPL.

Q Who owns / manages Tiki?

A It's a community-managed project. You are invited to help!

Q How can I find out more?

A Go to tikiwiki.org. Here you will find links to all the documentation, a directory of consultants, various hosting options and details about email lists and chat facilities to allow you to get more information and answer your questions.
